A new comment has been submitted at [socotransmission.com](http://socotransmission.com).

### COMMENT

Meeting Attended:

Colorado City Scoping Meeting

Important Issues:

Land Use (Agriculture, Residential, Recreation), Historic and Cultural Sites, Health and Safety, Visual / Aesthetic Resources, Proximity to Residences

Property Uses:

Agriculture, Residential

Comment:

**I-209-001**

It seems like a no-brainer to run these new lines along the existing railroad right-of-way where access and maintenance are easier for you and health, aesthetic, agricultural and intrusion impacts are lessened for property owners.

**I-209-002**

We are entering an exciting new era of energy generation. Let's do it right from the beginning!

There is more to be considered than just speed and efficiency, or even cost. It is important to consider the whole SYSTEM that is impacted by this proposal and that includes the environment, its human and animal inhabitants, vegetation, water and water courses, etc.

I would love to see you involve the Regenes Group development consultants from Santa Fe in your planning process. They do amazing work that results in 'wins' for everyone involved. At least look them up out of curiosity and get a sense of the process they use. We don't have to keep doing things the same old way. Thanks!
